Company Profile

About Us:

Latest Energy and Safety Technology is a professional Fire & Electrical Safety Consulting Firm based in Bangladesh, providing comprehensive design, installation, testing, and compliance services for industrial, commercial, and residential projects. We are committed to delivering reliable, code-compliant, and cost-effective safety solutions that protect life, property, and business continuity. With a strong technical team led by experienced engineers, we specialize in fire safety systems, electrical safety testing, energy services, and regulatory approvals in accordance with national and international standards.

Our Vision:

To become a trusted and leading safety engineering firm in Bangladesh by ensuring safe, sustainable, and compliant energy and fire protection solutions.

Our Mission:

To enhance workplace and building safety through proper design and compliance
To provide high-quality engineering services with integrity and professionalism
To support clients in meeting regulatory and fire safety authority requirements
